Share Repurchase Program

The Company repurchased 93,874 shares of its common stock at a total cost of approximately \$13.0 million based on trade date under its share repurchase program in the second quarter of 2024. We had approximately \$179.9 million of repurchase authority remaining under this program on June 30, 2024.

Revolving Credit Facility and Term Loan A Facility Amendment

The Company successfully closed an amendment of its senior secured credit agreement to extend the maturity date of its revolving credit facility and Term Loan A facility from 2027 to 2029 and to make certain other changes to its existing credit agreement.

NET INCOME ATTRIBUTABLE TO CDI

The Company's second quarter 2024 net income attributable to CDI was \$209.3 million compared to \$143.0 million in the prior year quarter.

The following impacted the comparability of the Company's second quarter 2024 net income to the prior year quarter:

- an \$18.5 million decrease in after-tax non-cash impairment costs; and
- a \$5.8 million after-tax decrease in transaction, pre-open, and other expenses primarily related to Arlington exit costs in 2023.

This was partially offset by:

• a \$1.0 million increase of other items.

Excluding the items above, second quarter 2024 net income increased \$43.0 million primarily due to the following:

- a \$49.1 million after-tax increase primarily driven by the results of our operations,
- partially offset by a \$6.1 million after-tax increase in interest expense associated with higher outstanding debt balances and higher interest rates.

Use of Non-GAAP Measures

In addition to the results provided in accordance with GAAP, the Company also uses non-GAAP measures, including adjusted net income, adjusted diluted EPS, EBITDA (earnings before interest, taxes, depreciation and amortization), and Adjusted EBITDA.

The Company uses non-GAAP measures as a key performance measure of the results of operations for purposes of evaluating performance internally. These measures facilitate comparison of operating performance between periods and help investors to better understand the operating results of the Company by excluding certain items that may not be indicative of the Company's core business or operating results. The Company believes the use of these measures enables management and investors to evaluate and compare, from period to period, the Company's operating performance in a meaningful and consistent manner. The non-GAAP measures are a supplemental measure of our performance that is not required by, or presented in accordance with, GAAP, and should not be considered as an alternative to, or more meaningful than, net income or diluted EPS (as determined in accordance with GAAP) as a measure of our operating results.

We use Adjusted EBITDA to evaluate segment performance, develop strategy, and allocate resources. We utilize the Adjusted EBITDA metric to provide a more accurate measure of our core operating results and enable management and investors to evaluate and compare from period to period our operating performance in a meaningful and consistent manner. Adjusted EBITDA should not be considered as an alternative to operating income as an indicator of performance, as an alternative to cash flows from operating activities as a measure of liquidity, or as an alternative to any other measure provided in accordance with GAAP. Our calculation of Adjusted EBITDA may be different from the calculation used by other companies and, therefore, comparability may be limited.

Adjusted net income and adjusted diluted EPS exclude discontinued operations net income or loss; net income or loss attributable to noncontrolling interest; changes in fair value for interest rate swaps related to Rivers Des Plaines; Rivers Des Plaines' legal reserves and transaction costs; transaction expense, which includes acquisition and disposition related charges, as well as legal, accounting, and other deal-related expense; pre-opening expense; and certain other gains, charges, recoveries, and expenses.

Adjusted EBITDA includes our portion of EBITDA from our equity investments and the portion of EBITDA attributable to noncontrolling interest.

Adjusted EBITDA excludes:

- Transaction expense, net which includes:
 - Acquisition, disposition, and property sale related charges;
 - Other transaction expense, including legal, accounting, and other deal-related expense;
- Stock-based compensation expense;
- · Asset impairments;
- · Gain on property sales;
- Legal reserves;
- Pre-opening expense; and
- Other charges, recoveries, and expenses.

As of December 31, 2021, our property in Arlington Heights, Illinois ("Arlington") ceased racing and simulcast operations and the property was sold on February 15, 2023 to the Chicago Bears. Arlington's results and exit costs in 2023 are treated as an adjustment to EBITDA and are included in other expenses, net in the Reconciliation of Comprehensive Income to Adjusted EBITDA.

On June 26, 2023, the Company's management agreement for Lady Luck in Farmington, Pennsylvania expired and was not renewed. The Company completed the sale of substantially all its assets at Lady Luck for an immaterial amount.

For segment reporting, Adjusted EBITDA includes intercompany revenue and expense totals that are eliminated in the Consolidated Statements of Comprehensive Income. See the Reconciliation of Comprehensive Income to Adjusted EBITDA included herewith for additional information.
