CHURCHILL DOWNS INCORPORATED REPORTS 2009 SECOND-QUARTER RESULTS

• Company's Second-Quarter Net Revenues, Net Earnings and EBITDA From Continuing Operations Increase Year-Over-Year Despite Tough Economy

• Slot-Machine Gaming and Online Businesses Continue to Fuel Company's Growth

LOUISVILLE, Ky. (July 29, 2009) – Churchill Downs Incorporated (NASDAQ: CHDN) ("Company") today reported results for the second quarter and six months ended June 30, 2009.

Net earnings from continuing operations for the quarter grew 5 percent to \$30.9 million, or \$2.20 per diluted common share, compared to net earnings from continuing operations of \$29.4 million, or \$2.10 per diluted common share, for the same period in 2008. The Company's earnings before interest, taxes, depreciation and amortization ("EBITDA") also grew quarter-over-quarter from \$57.5 million in 2008 to \$58.6 million in 2009, an increase of 2 percent. The primary drivers for the year-over-year increases in both net earnings and EBITDA from continuing operations were the continued growth of the Company's online business – including the advance-deposit wagering ("ADW") platform, TwinSpires.com, which posted gains in net revenues from continuing operations of 35 percent compared to the prior period – and the growth of the Company's gaming business in Louisiana, which improved its quarter-over-quarter net revenues from continuing operations by 31 percent.

Net revenues from continuing operations for the second quarter of 2009 increased slightly to \$180.0 million from \$179.3 million recorded during the second quarter of 2008. The growth of the Company's online and gaming businesses primarily fueled the period-over-period increase in net revenues from continuing operations. That growth was partially offset by a decline in corporate hospitality and admissions revenues generated by Kentucky Derby week, the loss of six racing dates at Churchill Downs driven by a reduced number of entries that resulted in lower wagering revenues, as well as lower pari-mutuel revenues at Arlington Park and Fair Grounds, which the Company believes is attributable to the general weakness of the U.S. economy.

Churchill Downs Incorporated President and Chief Executive Officer Robert L. Evans said, "Despite a tough economy, our Company's investments in slotmachine gaming and online businesses have helped Churchill Downs Incorporated grow second-quarter net revenues and net earnings from continuing operations year-over-year while also mitigating the continued declines in our Racing Operations. Our signature racing events, the Kentucky Derby and Kentucky Oaks, were not immune to the ongoing recession as many of our corporate clients elected to reduce their 2009 Derby-related marketing and hospitality expenditures. As a result, our profitability

Churchill Downs Incorporated Reports 2009 Second-Quarter Results Page 2 of 9 July 29, 2009

from Kentucky Derby week declined by \$3.2 million compared to one year ago. We believe this decline occurred under extraordinary economic conditions, and we remain encouraged by the strength of Derby weekend's other key metrics, including a combined Derby and Oaks on-track attendance of 258,403; two-day total wagering of \$186.0 million; and a phenomenal 9.8 national television rating for NBC's broadcast of the Kentucky Derby race segment, the highest TV rating for the race in 17 years.

"While total U.S. wagering on horse racing for the second quarter of 2009 declined by 11 percent compared to the prior period according to figures published by Equibase, total handle on Churchill Downs Incorporated races dipped by 3 percent during the same period as handle growth through our ADW business helped offset wagering declines at the majority of our racetracks and off-track betting facilities. From April through June 2009, TwinSpires.com experienced an expansion in average daily wagering and average daily active users.

"One of the highlights of the quarter was our experiment with night racing at Churchill Downs Racetrack," Evans continued. "Lights certainly added a new dimension to our core product on the track, and the great variety of amenities and activities offered throughout our facility – from red carpet entrances and gourmet dinners to a paddock dance club and the 'Bet Or No Bet' wagering promotion – attracted 89,115 guests over three evenings and presented horse racing as a fresh and 'buzz worthy' entertainment option. We were thrilled with our customers' responses to these innovations and to learn that 'Downs After Dark' had strong appeal for both veteran and novice fans. We are currently examining the financial results of our night racing experiment, and with newly appointed Churchill Downs Racetrack President Kevin Flanery, we will soon determine whether to make night racing a staple of our entertainment offerings.

"June 2009 brought the start of construction on our new slot-machine gaming facility at Calder Casino and Race Course in Miami Gardens, Fla. The 108,000-square foot facility will be adjacent to the racing operation's grandstand building and will initially offer 1,225 slot machines. Calder's new gaming facility is scheduled to open early next year.

"The month of June also brought a significant disappointment for the entire Kentucky horse racing industry when the Kentucky Senate President and his supporters blocked passage of House Bill 2 out of committee during a special session called by Gov. Steve Beshear. This action killed legislation that would have authorized video lottery terminals at Kentucky's racetracks and would have allowed the state's signature industry to compete on a level playing field. Without this kind of gaming legislation, horse racing in Kentucky will continue to fall behind other states with slots-fed purses. We will continue to work with state lawmakers – regardless of their party affiliation – to pass this legislation and help Kentucky's largest agribusiness overcome this competitive disadvantage."

In addition to the results provided in accordance with U.S. Generally Accepted Accounting Principles ("GAAP"), the Company has provided a non-GAAP measurement, which presents a financial measure of earnings before interest, taxes, depreciation and amortization ("EBITDA"). Churchill Downs Incorporated uses EBITDA as a key performance measure of results of operations for purposes of evaluating performance internally. The Company believes the use of this measure enables management and investors to evaluate and compare, from period to period, the Company's operating performance in a meaningful and consistent manner. This non-GAAP measurement is not intended to replace the presentation of the Company's financial results in accordance with GAAP.

Churchill Downs Incorporated ("Churchill Downs"), headquartered in Louisville, Ky., owns and operates world-renowned horse racing venues throughout the United States. Churchill Downs' four racetracks in Florida, Illinois, Kentucky and Louisiana host many of North America's most prestigious races, including the Kentucky Derby and Kentucky Oaks, Arlington Million, Princess Rooney Handicap and Louisiana Derby. Churchill Downs racetracks have hosted seven Breeders' Cup World Championships. Churchill Downs also owns off-track betting facilities and has interests in various advance-deposit wagering, television production, telecommunications and racing services companies, including a 50-percent interest in the national cable and satellite network HorseRacing TVTM, that support the Company's network of simulcasting and racing operations. Churchill Downs trades on the NASDAQ Global Select Market under the symbol CHDN and can be found on the Internet at <u>www.churchilldownsincorporated.com</u>.

Information set forth in this news release contains various "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. The Private Securities Litigation Reform Act of 1995 (the "Act") provides certain "safe harbor" provisions for forward-looking statements. All forward-looking statements made in this Quarterly Report on Form 10-Q are made pursuant to the Act. The reader is cautioned that such forward-looking statements are based on information available at the time and/or management's good faith belief with respect to future events, and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in the statements. Forward-looking statements speak only as of the date the statement was made.
