NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1 — BASIS OF PRESENTATION

The accompanying Condensed Consolidated Financial Statements are presented in accordance with the requirements of this Quarterly Report on Form 10-Q and consequently do not include all of the disclosures normally required by accounting principles generally accepted in the United States of America or those normally made in Churchill Downs Incorporated's (the "Company") Annual Report on Form 10-K. The year-end Condensed Consolidated Balance Sheet data was derived from audited financial statements but does not include all disclosures required by accounting principles generally accepted in the United States of America. Accordingly, the reader of this Quarterly Report on Form 10-Q should refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2007 for further information. The accompanying Condensed Consolidated Financial Statements have been prepared in accordance with the Company's customary accounting practices and have not been audited.

In the opinion of management, all adjustments necessary for a fair statement of this information have been made, and all such adjustments are of a normal, recurring nature.

The Company's revenues and earnings are significantly influenced by its racing calendar. Therefore, revenues and operating results for any interim quarter are generally not indicative of the revenues and operating results for the year and may not be comparable with results for the corresponding period of the previous year. The Company conducts the majority of its live racing during the second, third and fourth quarters, including the running of the Kentucky Derby and the Kentucky Oaks during the second quarter, the quarter during which the Company typically generates the majority of its annual operating income. The Company conducted 119 live racing days during the third quarter of 2008, which compares to 121 live racing days conducted during the third quarter of 2007. For the nine months ended September 30, 2008, the Company conducted 302 live racing days, which compares to 308 live racing days conducted during the nine months ended September 30, 2007.

Comprehensive Earnings

The Company had no other components of comprehensive earnings and, as such, comprehensive earnings is the same as net earnings as presented in the accompanying Condensed Consolidated Statements of Net Earnings.

NOTE 2 — CALDER RACE COURSE PURSE AGREEMENTS

On July 7, 2008, certain subsidiaries of the Company reached agreement with the Florida Horsemen's Benevolent and Protective Association, Inc. (the "FHBPA") with respect to the sharing of revenues from pari-mutuel operations (the "Purse Agreement") and slot machines (the "Slots Agreement") at Calder Race Course ("Calder"). These agreements allowed Calder to resume distributing its signal from Calder to the simulcast network around the country, including off-track betting ("OTB") facilities and racetracks (but excluding national advance deposit wagering ("ADW") companies), beginning with races on July 10, 2008. In addition, certain out-of-state horsemen's groups that previously withheld the consents required under the Interstate Horseracing Act of 1978 (the "IHA") to send certain racetracks' signals to Calder for wagering have now granted those consents.

The Purse Agreement became effective on July 7, 2008. Under the terms of the Purse Agreement, for thoroughbred horse racing meetings at Calder through January 2, 2009, the Company generally will make payments to the horsemen in an amount equal to fifty percent (50%) of all revenue from pari-mutuel operations.

The Slots Agreement will become effective on the day the slot machine facility at Calder opens to the general public for slot machine wagering (the date of "First Coin Drop") and will expire on the tenth anniversary of the first December 31st after the date of First Coin Drop, subject to automatic five-year renewal periods. Under the Slots Agreement, Calder will contribute certain sums of slot machine revenue to supplement thoroughbred racing purses at Calder. During the first four years of the Slots Agreement, the Company will supplement purses for thoroughbred horse races conducted at Calder at a minimum of \$14.4 million in the aggregate depending on the date of the First Coin Drop. Thereafter, Calder will supplement purses by 6.75% of slot machine revenue annually for the remainder of the initial term of the Slots Agreement. The Slots Agreement also requires that Calder and the Company's

[Table of Contents](#)

Tropical Park racing meet at Calder, collectively, conduct live thoroughbred horse racing on no fewer than 150 days per full calendar year during the term of the Slots Agreement, which requirement is generally contingent upon the existence of a current, executed purse agreement as of March 15 of each such calendar year.

The Calder Slots Agreement and the Calder Purse Agreement initially included provisions that could lead to the termination of those agreements if agreement with the Florida Thoroughbred Breeders and Owners Association (the "FTBOA") for the sharing of slots revenue at Calder was not reached by August 6, 2008; however, Calder and the FHBPA agreed on July 31, 2008 to amend each of the Calder Slots Agreement and Calder Purse Agreement to extend that deadline to August 31, 2008 and then a second time to extend such deadline to September 10, 2008. Calder and the FTBOA reached agreement (the "Breeders Agreement") for the sharing of slots revenue on September 10, 2008. Under the Breeders Agreement, Calder will supplement the payment of thoroughbred breeders stallion and special racing awards in an amount equal to 0.75% of slot machine revenue annually. The Breeders Agreement will be effective on the date of the First Coin Drop and will expire on the tenth anniversary of the first December 31st after the First Coin Drop subject to five-year renewal periods at the election of the FTBOA.

NOTE 3 — HOOSIER PARK CONTINGENT CONSIDERATION

The Partnership Interest Purchase Agreement with Centaur Racing LLC for the sale of the Company's interest in Hoosier Park includes a contingent consideration provision whereby the Company is entitled to payments of up to \$15 million once slot machines are operational at Hoosier Park. During June 2008, Hoosier Park commenced its slot operations, fulfilling the terms of the contingency provision. As of September 30, 2008, management has determined that collectibility of amounts due is not reasonably assured and therefore has not recognized the amount due under the agreement as of that date. Amounts due will be recorded as a gain on the sale of Hoosier Park once collectibility is reasonably assured.

NOTE 4 — ACQUISITIONS AND NEW VENTURES

On June 11, 2007, the Company completed its acquisition of certain assets of AmericaTab ("ATAB"), Bloodstock Research Information Services, Inc. ("BRIS") and the Thoroughbred Sports Network, Inc. ("TSN") (collectively, "ATAB and BRIS") for an aggregate purchase price of \$80 million, plus potential earn-out payments of up to \$7 million, which is based upon the financial performance of the operations of the ADW business during the five years ended June 30, 2012. During the first quarter of 2008, the Company determined that defined financial performance conditions would be achieved at some point prior to June 30, 2012 and therefore, accrued the entire earn-out payment of \$7.0 million as a current liability with a corresponding increase to goodwill. During the quarter ended September 30, 2008, the Company paid \$3.5 million of the earn-out payment. The transaction includes the acquisition of the following ADW platforms: winticket.com, BrisBet.com and TsnBet.com. Through these transactions, the Company has also acquired the operations of two industry-leading data services companies, BRIS and TSN, which produce handicapping and pedigree reports that are sold to racetracks, horse owners and breeders, horse players and racing-related publications. The primary reason for these acquisitions was to invest in assets with an expected yield on investment, as well as to enter one of the fastest growing segments of the pari-mutuel wagering industry. During the fourth quarter of 2007, the Company merged the ATAB ADW business with TwinSpires, an internally developed ADW business, thereby establishing a single ADW brand.

Pro Forma

The following table illustrates the effect on net revenues from continuing operations, net earnings from continuing operations, and net earnings from continuing operations per common share as if the Company had consummated the acquisitions of ATAB and BRIS as of the beginning of the period presented. The pro forma results have been prepared for comparative purposes only and do not purport to be indicative of the results of operations that would have occurred had the acquisitions of ATAB and BRIS been consummated at the beginning of the period.

NOTE 5 — INSURANCE RECOVERIES

On August 29, 2005, Hurricane Katrina caused significant damage to the metropolitan New Orleans, Louisiana area. During the nine months ended September 30, 2008, the Company received \$17.2 million of insurance recoveries related to a claim for this damage. This represented the final payments of all outstanding property and business interruption claims related to this damage. As a result, \$17.2 million of insurance recoveries were included in the Company's Condensed Consolidated Statement of Net Earnings for the nine months ended September 30, 2008.

NOTE 6 — SETTLEMENT WITH EP ACQUISITION, LLC

The Company has reached an agreement with EP Acquisition, LLC to settle certain disputes arising out of the sale of Ellis Park pursuant to the Stock Purchase Agreement, which resulted in a payment of \$2.0 million to EP Acquisition, LLC during the second quarter of 2008 representing a reduction to the original sales proceeds. This reduction to the original purchase price was included in discontinued operations of the Company's Consolidated Statement of Net Earnings for the year ended December 31, 2007.

NOTE 7 — LONG-TERM INCENTIVE PLAN

During March 2008, the Board of Directors approved the Terms and Conditions of Performance Share Awards Issued Pursuant to the Churchill Downs Incorporated 2007 Omnibus Stock Incentive Plan (the "Company LTIP") as well as the Terms and Conditions of Performance Share Awards Issued Pursuant to the Churchill Downs Incorporated 2007 Omnibus Stock Incentive Plan for Employees of TwinSpires (the "TwinSpires LTIP"). The objective of the Company LTIP and the TwinSpires LTIP is to support the entrepreneurial mindset desired by management by providing an opportunity to earn significant equity in the Company for achieving significant performance targets.

In accordance with the Company LTIP, participants earn performance share awards over a five year period (2008 through 2012) that are paid in either cash or stock of the Company, at the discretion of the Company, based on performance targets achieved by the Company as well as the participant. Performance targets of the Company are predetermined Company EBITDA (defined as earnings before interest, taxes, depreciation and amortization) goals for each year during the term of the Company LTIP. Performance targets of the participants are defined as substantial contributions to the performance and strategic improvement of the Company.

[Table of Contents](#)

In accordance with the TwinSpires LTIP, participants earn performance share awards over a four year period (2008 through 2011) that are paid in either cash or stock of the Company, at the discretion of the Company, based on performance targets achieved by TwinSpires. Performance targets of TwinSpires are predetermined TwinSpires EBITDA goals for each year during the term of the TwinSpires LTIP.

During the first quarter subsequent to each year during the term of each of the Company LTIP and the TwinSpires LTIP, performance share awards denominated in either cash or stock are awarded to participants based on assessment of the achievement of performance targets. Such awards have varying service conditions and vest on a quarterly basis. During the three months ended September 30, 2008, the Company determined that it was unlikely that it would incur any obligations related to 2008 performance based on the Company's results of operations and reversed \$1.0 million of compensation expense related to both LTIP plans that was previously recognized during 2008.

NOTE 8 — GOODWILL AND INDEFINITE-LIVED INTANGIBLE ASSETS IMPAIRMENT TEST

Goodwill and indefinite-lived intangible assets are tested for impairment on an annual basis in accordance with Statement of Financial Accounting Standards ("SFAS") No. 142, "Goodwill and Other Intangible Assets." In assessing whether goodwill is impaired, the fair value of the related reporting unit is compared to its carrying amount, including goodwill. If the carrying amount of the reporting unit exceeds its fair value, the second step of the goodwill impairment test is performed to measure the amount of impairment loss, if any. The second step of the goodwill impairment test consists of comparing the implied fair value of reporting unit goodwill with the carrying amount of that goodwill. If the carrying amount of reporting unit goodwill exceeds the implied fair value of that goodwill, an impairment loss is recognized equal to such excess. The implied fair value of goodwill is determined in the same manner as when determining the amount of goodwill recognized in a business combination. The Company completed the required annual impairment tests of goodwill and indefinite-lived intangible assets during the three months ended March 31, 2008, and no adjustment to the carrying value of goodwill or indefinite-lived intangible assets was required.

NOTE 9 — FAIR VALUE OF FINANCIAL INSTRUMENTS

SFAS No. 157, Fair Value Measurements ("SFAS No. 157"), establishes a common definition for fair value to be applied to U.S. generally accepted accounting principles requiring use of fair value, establishes a framework for measuring fair value and expands disclosures about such fair value measurements. Issued in February 2008, Financial Accounting Standards Board Staff Position ("FSP") No. 157-1, Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements that Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13, removed leasing transactions accounted for under SFAS No. 13 and related guidance from the scope of SFAS No. 157. FSP No. 157-2, Partial Deferral of the Effective Date of SFAS No. 157, deferred the effective date of SFAS No. 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the Company's Consolidated Financial Statements on a recurring basis, to fiscal years beginning after November 15, 2008.

The Company adopted SFAS No. 157 as of January 1, 2008 for financial assets and financial liabilities, and there was no impact on the Company's consolidated financial position and results of operations for the three and nine months ended September 30, 2008. The Company is currently assessing the impact of SFAS No. 157 for nonfinancial assets and nonfinancial liabilities on the Company's consolidated financial position and results of operations.

SFAS No. 157 establishes a hierarchy for ranking the quality and reliability of the information used to determine fair values. SFAS No. 157 requires that assets and liabilities carried at a fair value be classified and disclosed in one of the following three categories:

Level 1: Unadjusted quoted market prices in active markets for identical assets or liabilities.

Level 2: Unadjusted quoted prices in active markets for similar assets or liabilities, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices are observable for the asset or liability.

Level 3: Unobservable inputs for the asset or liability.

[Table of Contents](#)

The Company endeavors to utilize the best available information in measuring fair value. Financial assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurement. Approximately \$14.7 million of the Company's restricted cash at September 30, 2008, a portion of which is held in interest bearing accounts, which qualifies for Level 1 in the fair value hierarchy described above. The Company also had \$13.3 million of cash and cash equivalents, which qualifies for Level 1 in the fair value hierarchy above. The Company currently has no other financial instruments subject to fair value measurement on a recurring basis.

Options to purchase approximately 80 thousand and 40 thousand shares for the three and nine months ended September 30, 2008, respectively, and options to purchase six thousand and two thousand shares for the three and nine months ended September 30, 2007, respectively, were not included in the computation of earnings per common share assuming dilution because the options' exercise prices were greater than the average market price of the common shares.

NOTE 11 — SEGMENT INFORMATION

During the second quarter of 2008, the Company implemented a business realignment that more properly considers recent growth and changes in its businesses. As a result of this realignment, the Company redefined its business segments. All prior period segment information has been reclassified to conform to the current period's presentation. The Company has determined that it currently operates in the following four segments: (1) Racing Operations, which includes Churchill Downs Racetrack ("Churchill Downs"), Calder, Arlington Park and its ten OTBs and Fair Grounds Race Course ("Fair Grounds") and the pari-mutuel activity generated at its ten OTBs; (2) On-line Business, which includes TwinSpires, our ADW business, and BRIS as well as the Company's equity investment in HRTV; (3) Gaming, which includes video poker and slot operations; and (4) Other Investments, including Churchill Downs Simulcast Productions and the Company's other minor investments. Eliminations include the elimination of intersegment transactions.

The accounting policies of the segments are the same as those described in the "Summary of Significant Accounting Policies" in Note 1 of the Company's Annual Report on Form 10-K for the year ended December 31, 2007. The Company uses revenues and EBITDA as key performance measures of the results of operations for purposes of evaluating performance internally. Furthermore, management believes that the use of these measures enables management and investors to evaluate and compare from period to period, the Company's operating performance in a meaningful and consistent manner. Because the Company uses EBITDA as a key performance measure of financial performance, the Company is required by accounting principles generally accepted in the United States of America to provide the information in this footnote concerning EBITDA. However, these measures should not be considered as an alternative to, or more meaningful than, net earnings (as determined in accordance with accounting principles generally accepted in the United States of America) as a measure of the Company's operating results or cash flows (as determined in accordance with accounting principles generally accepted in the United States of America) or as a measure of the Company's liquidity.

NOTE 12 — RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

SFAS 141R, Business Combinations (“SFAS No. 141R”) establishes principles and requirements for how an acquirer: (1) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interests in the acquiree; (2) recognizes and measures the goodwill acquired in the business combination or gain from a bargain purchase; and (3) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial impact of the business combination. SFAS No. 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first reporting period for fiscal years beginning on or after December 15, 2008 and will have no impact on the Company’s transactions recorded to date.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Information set forth in this discussion and analysis contains various "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. The Private Securities Litigation Reform Act of 1995 (the "Act") provides certain "safe harbor" provisions for forward-looking statements. All forward-looking statements made in this Quarterly Report on Form 10-Q are made pursuant to the Act. The reader is cautioned that such forward-looking statements are based on information available at the time and/or management's good faith belief with respect to future events, and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in the statements. Forward-looking statements speak only as of the date the statement was made. We assume no obligation to update forward-looking information to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information. Forward-looking statements are typically identified by the use of terms such as "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "might," "plan," "predict," "project," "should," "will," and similar words, although some forward-looking statements are expressed differently. Although we believe that the expectations reflected in such forward-looking statements are reasonable, we can give no assurance that such expectations will prove to be correct. Important factors that could cause actual results to differ materially from expectations include: the effect of global economic conditions, including any disruptions in the credit markets; the effect (including possible increases in the cost of doing business) resulting from future war and terrorist activities or political uncertainties; the overall economic environment; the impact of increasing insurance costs; the impact of interest rate fluctuations; the effect of any change in our accounting policies or practices; the financial performance of our racing operations; the impact of gaming competition (including lotteries and riverboat, cruise ship and land-based casinos) and other sports and entertainment options in those markets in which we operate; the impact of live racing day competition with other Florida and Louisiana racetracks within those respective markets; costs associated with our efforts in support of alternative gaming initiatives; costs associated with customer relationship management initiatives; a substantial change in law or regulations affecting pari-mutuel and gaming activities; a substantial change in allocation of live racing days; changes in Illinois law that impact revenues of racing operations in Illinois; the presence of wagering facilities of Indiana racetracks near our operations; our continued ability to effectively compete for the country's top horses and trainers necessary to field high-quality horse racing; our continued ability to grow our share of the interstate simulcast market and obtain the consents of horsemen's groups to interstate simulcasting; our ability to execute our acquisition strategy and to complete or successfully operate planned expansion projects; our ability to successfully complete any divestiture transaction; our ability to execute on our permanent slot facility in Louisiana and permanent slot facility in Florida; market reaction to our expansion projects; the loss of our totalisator companies or their inability to provide us assurance of the reliability of their internal control processes through Statement on Auditing Standards No. 70 audits or to keep their technology current; the need for various alternative gaming approvals in Louisiana; our accountability for environmental contamination; the loss of key personnel; the impact of natural disasters on our operations and our ability to adjust the casualty losses through our property and business interruption insurance coverage; any business disruption associated with a natural disaster and/or its aftermath; our ability to integrate businesses we acquire, including our ability to maintain revenues at historic levels and achieve anticipated cost savings; the impact of wagering laws, including changes in laws or enforcement of those laws by regulatory agencies; the outcome of pending or threatened litigation, including the outcome of any counter-suits or claims arising in connection with a pending lawsuit in federal court in the Western District of Kentucky styled *Churchill Downs Incorporated, et al v. Thoroughbred Horsemen's Group, LLC, Case #08-CV-225-S*; changes in our relationships with horsemen's groups and their memberships; our ability to reach agreement with horsemen's groups on future purse and other agreements (including, without limiting, agreements on sharing of revenues from gaming and advance deposit wagering); the effect of claims of third parties to intellectual property rights; and the volatility of our stock price.

You should read this discussion in conjunction with the Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q and the Company's Annual Report on Form 10-K for the year ended December 31, 2007 for further information, including Part I – Item 1A, "Risk Factors" for a discussion regarding some of the reasons that actual results may be materially different from those we anticipate, as modified by Part II – Item 1A of this Quarterly Report on Form 10-Q.

Overview

We are a leading multi-jurisdictional owner and operator of pari-mutuel wagering properties and businesses. Additionally, we offer gaming products through our slot and video poker operations in Louisiana.

We operate Churchill Downs Racetrack (“Churchill Downs”) in Louisville, Kentucky, which has conducted thoroughbred racing since 1875 and is internationally known as the home of the Kentucky Derby. We also own and operate Arlington Park, a thoroughbred racing operation in Arlington Heights, Illinois; Calder Race Course (“Calder”), a thoroughbred racing operation in Miami Gardens, Florida; Fair Grounds Race Course (“Fair Grounds”) and Slots, a thoroughbred racing operation in New Orleans, Louisiana, which also owns and operates 250 slot machines; and Video Services Inc. (“VSI”), the owner and operator of more than 700 video poker machines in Louisiana. We conduct simulcast wagering on horse racing at 21 simulcast wagering facilities in Kentucky, Illinois and Louisiana, as well as at our four racetracks.

During the fourth quarter of 2008, we expect to open the permanent slot facility at Fair Grounds and close the temporary slot facility, which has been in use since September 2007. The new facility will initially include approximately 600 slot machines and three restaurants, further enhancing the entertainment and gaming experience at Fair Grounds.

During the third quarter, the overall weakness in the U.S. economy, particularly the turmoil in the credit markets, weakness in the housing market, and volatile energy and commodity costs, have resulted in considerable negative pressure on consumer spending. As a result, pari-mutuel wagering and gaming businesses, which are driven, in part, by discretionary spending and industry competition, continued to weaken during the third quarter and contributed to a decline in our pari-mutuel handle of 12% during the three months ended September 30, 2008 compared to the same period of 2007. Total handle for the pari-mutuel industry, as published by the National Thoroughbred Racing Association, declined 10% during the three months ended September 30, 2008 compared to the same period of 2007. Disputes with horsemen regarding purse levels related to slot and ADW revenues have limited our racing signal distribution and contributed to the decline in our pari-mutuel handle. We anticipate that discretionary spending will not improve, and will likely weaken further, until the current economic trends reverse course, particularly the expected weakness in the overall economy and the lack of liquidity in the credit markets. We believe that, despite uncertain economic conditions, we are in a strong financial position. As of September 30, 2008, there is \$75.2 million of borrowing capacity under our revolving loan facility, which matures September 2010. To date, we have not experienced any limitations in our ability to access these sources of liquidity.

During the second quarter of 2008, we implemented a business realignment that more properly considers recent growth and changes in our businesses. As a result of this realignment, we redefined our business segments into the following four segments: (1) Racing Operations, which includes Churchill Downs, Calder, Arlington Park and its ten off-track betting facilities (“OTB”) and Fair Grounds and its ten OTBs; (2) On-line Business, which includes TwinSpires, our advance deposit wagering (“ADW”) business, and BRIS as well as our equity investment in HRTV; (3) Gaming, which includes video poker and slot operations; and (4) Other Investments, including Churchill Downs Simulcast Productions and our other minor investments. We use revenues and EBITDA as key performance measures of the results of operations for purposes of evaluating performance internally. Furthermore, we believe that the use of these measures enables us and investors to evaluate and compare from period to period, our operating performance in a meaningful and consistent manner. Because we use EBITDA as a key performance measure of financial performance, we are required by accounting principles generally accepted in the United States of America to provide the information concerning EBITDA. However, these measures should not be considered as an alternative to, or more meaningful than, net earnings (as determined in accordance with accounting principles generally accepted in the United States of America) as a measure of our operating results or cash flows (as determined in accordance with accounting principles generally accepted in the United States of America) or as a measure of our liquidity.

During 2007, we sold our ownership interest in Hoosier Park. We made the decision to sell Hoosier Park in order to dispose of an asset which we considered to be underperforming and to provide us with additional opportunities and resources to focus on our other assets and operations. As of the date of the filing of this Quarterly Report on Form 10-Q, we do not anticipate further dispositions of our operations. The sold business discussed above has been accounted for as discontinued operations in our Condensed Consolidated Financial Statements included in Item 1 of

this Quarterly Report on Form 10-Q. Please refer to further sections of Management's Discussion and Analysis of Financial Condition and Results of Operations included in this Item 2 as well as our Condensed Consolidated Financial Statements included in Item 1 of this Quarterly Report on Form 10-Q for further details regarding the disposition.

Recent Developments

Hurricane Gustav

During the three months ended September 30, 2008, we experienced disruption at our Fair Grounds facilities from Hurricane Gustav which required the closure of our OTBs for up to nine days and negatively impacted our results of operations. We have not filed any claims with our insurance carriers nor were any assets impaired as a result of property damages.

Hoosier Park Contingent Consideration

The Partnership Interest Purchase Agreement with Centaur Racing LLC for the sale of our interest in Hoosier Park includes a contingent consideration provision whereby we are entitled to payments of up to \$15 million once slot machines are operational at Hoosier Park. During June 2008, Hoosier Park commenced its slot operations, fulfilling the terms of the contingency provision. As of September 30, 2008, we have determined that collectibility of amounts due is not reasonably assured and therefore we have not recognized the amount due under the agreement as of that date. Amounts due will be recorded as a gain on the sale of Hoosier Park once collectibility is reasonably assured.

Horsemen's Consent to Distribute Racing Signals

The Thoroughbred Horsemen's Group LLC (the "THG"), an alliance of approximately nineteen horsemen's groups covering over 45 racetracks, including Fair Grounds, Arlington Park, Churchill Downs and Calder, has been appointed an agent on behalf of such horsemen's groups for the purpose of negotiating agreements with the Company related to sharing revenues on ADW as well as other activities. The THG has previously expressed interest in negotiating an agreement with the Company and its ADW business, TwinSpires, to provide approximately one-third of gross ADW wagering commissions to horsemen's groups that they represent, which is significantly higher than amounts returned to horsemen's groups currently. During the nine months ended September 30, 2008, we returned 9.1%, in total, of our On-line Business handle to the horsemen and hosting racetracks.

As a result of THG's position, the Florida Horsemen's Benevolent and Protective Association, Inc. (the "FHBPA"), the Kentucky Horsemen's Benevolent and Protective Association, Inc. (the "KHBPA") and the Kentucky Thoroughbred Association, Inc. (the "KTA") withheld their consent under the Interstate Horseracing Act of 1978 (the "IHA") for the exporting of racing signals from Churchill Downs and Calder to national ADW businesses, including TwinSpires. Until July 7, 2008, when an agreement was reached between Calder and the FHBPA for the sharing of revenues generated from slot machines at Calder (the "Calder Slots Agreement") and for purse contributions (the "Calder Purse Agreement"), horsemen's groups in Kentucky, Ohio, Maryland, Pennsylvania, Texas and Delaware withheld their consents under the IHA to import or export (as applicable) racing signals to or from Calder. As a result, beginning with the commencement of the Calder racing meet on April 21, 2008 until July 10, 2008, no export of racing signals was made from Calder to simulcasting outlets outside the state of Florida, except to off-track betting facilities ("OTB") located in New York. Calder continues to be precluded from exporting racing signals to any ADW business except for the New York Racing Association's ADW business, which operates on a limited basis outside the State of New York, notwithstanding the execution of the Calder Slots Agreement and Calder Purse Agreement. In addition, beginning with the commencement of the Churchill Downs racing meet on April 26, 2008 until the conclusion of its racing meet on July 6, 2008, no export of racing signals was made from Churchill Downs to any ADW business or Calder (which includes the state of Florida). However, Kentucky horsemen's groups did consent to the export of racing signals of the Kentucky Oaks, Kentucky Derby and Woodford Reserve Classic races on May 2 and May 3, 2008 to ADW businesses. In connection with these matters, we filed suit against the THG and FHBPA in the Western District of Kentucky on April 24, 2008. We amended our complaint to add the KHBPA, KTA and certain individuals to the lawsuit in 2008. In connection with the execution of the Calder Slots Agreement and Calder Purse Agreement, we voluntarily dismissed without prejudice the FHBPA and its individual directors and officers from this lawsuit. On September 10, 2008, Calder entered into an agreement

with the Florida Thoroughbred Owners and Breeders Association (the “FTBOA”) for the sharing of slots revenues with the FTBOA, and we agreed to dismiss with prejudice the FHBPA and its individual directors and officers from this lawsuit. For additional information, please refer to Legal Proceedings in Item 1 of Part II of this Quarterly Report on Form 10-Q. As of November 4, 2008, the following horsemen groups have withheld consent for the following racetracks’ content to be distributed through TwinSpires:

- Ohio HBPA (Beulah, River, Thistledown)
- Oklahoma HBPA (Remington Park, Blue Ribbon)
- Pennsylvania HBPA (Presque Isle Downs)
- Kentucky HBPA (Churchill Downs)
- Florida HBPA (Calder Race Course)
- Texas Horsemen’s Partnership (Retama, Sam Houston, Lone Star)
- Louisiana HBPA (Louisiana Downs)

Insurance Recoveries

On March 10, 2008, we entered into a final settlement agreement and release with our excess property insurance carriers relating to our outstanding claims from Hurricane Katrina. The agreed upon settlement amount of \$17.2 million covered all outstanding property and business interruption claims. During the nine months ended September 30, 2008, we received final payments totaling \$17.2 million.

Settlement with EP Acquisition LLC

We have reached an agreement with EP Acquisition, LLC to settle certain disputes arising out of the sale of Ellis Park pursuant to the Stock Purchase Agreement, which resulted in a payment of \$2.0 million to EP Acquisition, LLC during the second quarter of 2008 representing a reduction to the original purchase price.

Racing World Limited

Racing World Limited, a venture formed April 6, 2006 between RWHC, LLC, a wholly-owned subsidiary of Churchill Downs Incorporated, Magna Entertainment Corporation (“MEC”) and Racing UK Limited, ceased operations on April 30, 2008. As of April 30, 2008, Churchill Downs Incorporated and MEC each regained their in-home video and wagering rights for distribution in the United Kingdom. The parties have mutually agreed to dissolve the venture as a result of lower than expected handle in the United Kingdom.

Legislative and Regulatory Changes

Federal

WTO

In 2003, the country of Antigua filed a formal complaint against the United States with the World Trade Organization (“WTO”), challenging the United States’ ability to enforce certain Federal gaming laws (Sections 1084, 1952 and 1955 of Title 18 of the United States Code known as the Wire Act, the Travel Act and the Illegal Gambling Business Act, respectively, and collectively the “Acts”) against foreign companies that were accepting Internet wagers from United States residents. At issue was whether the United States’ enforcement of the Acts against foreign companies violated the General Agreement on Trade in Services (“GATS”). On January 25, 2007, the WTO compliance panel issued its interim finding in response to a brief report submitted by the U.S. delegation to the WTO to the Chairman of the Dispute Settlement Body (the “U.S. Report”) and found that the United States has failed to comply with previous WTO rulings regarding restrictions on access to the U.S. Internet gaming market. On March 30, 2007, the final report was issued upholding all lower panel decisions. On May 4, 2007, the United States Trade Representative (the “USTR”) announced that it had initiated the formal process by the United States of withdrawing its GATS commitment to clarify an error that it had made in 1994 by including gambling services in its schedule of commitments. The U.S. Government has made offers of compensation to WTO members affected by the decision of the U.S. to rule out any market access commitments regarding cross-border gambling services. The European Union, Canada, Japan and Australia have agreed to the compensation package, and Costa Rica settled

Table of Contents

after initially requesting arbitration. In December 2007, the WTO arbitrators awarded Antigua the right to impose sanctions against United States' intellectual property, including copyrights, trademarks and patents, up to an annual amount of \$21.0 million. The arbitrators' award is not subject to appeal under WTO rules. The U.S. withdrawal will become effective once the remaining Antigua arbitration is concluded.

The USTR has made no specific statement regarding how this will impact interstate gambling in horse racing. One of the options available to Congress and the White House is to prohibit or restrict substantially the conduct of interstate simulcast wagering or advance deposit wagering. If the U.S. government elects to take such an approach (including through any action by the Department of Justice), it will have a material, adverse impact on our business, financial condition and results of operations.

Florida

On January 29, 2008, Miami-Dade voters approved a referendum permitting pari-mutuel facilities, including Calder, to operate up to 2,000 slot machines at each location. Under current state law, the slot machine revenues are to be subject to a 50% tax rate.

On August 8, 2006, the District Court of Appeals, First District, State of Florida rendered a decision in the case of Floridians Against Expanded Gambling ("FAEG"), et. al versus Floridians for a Level Playing Field, et. al. FAEG challenged the process by which signatures were collected in order to place a constitutional amendment on the ballot in 2004 allowing Miami-Dade and Broward County voters to approve slot machines in pari-mutuel facilities. The District Court of Appeals reversed a decision of the Florida trial court, which granted summary judgment and dismissed the challenge, and remanded the case back to the trial court for an evidentiary hearing to determine whether sufficient signatures were collected in the petition process. A motion for rehearing by the entire Court of Appeals or in the alternative a motion for certification to the Florida Supreme Court was filed. The case was re-heard by the entire Court of Appeals and the panel's decision was upheld. The question of law was certified to the Florida Supreme Court, which initially accepted jurisdiction. However, after oral arguments were made on September 17, 2007, the court issued an opinion on September 27, 2007 which held the case was not properly before the court and therefore upheld the lower court's decision to remand the case back to the trial court for an evidentiary hearing to determine whether sufficient signatures were collected in the petition process. The case has not yet been scheduled for trial and we are reviewing our legal options moving forward.

Illinois

Arlington Park will continue to seek authority to conduct gaming at the racetrack. The 2008 session of the Illinois legislature ended without enactment of legislation permitting expanded gaming at the racetrack.

In 2006, the Illinois General Assembly created the Horse Racing Equity Trust Fund which was funded from revenues of Illinois riverboat casinos that meet a certain revenue threshold. Sixty percent of the funds were to be used for horsemen's purses (57% for thoroughbred meets and 43% for standardbred meets). The remaining 40% were to be distributed to racetracks (30.4% of that total for Arlington Park) and used for improving, maintaining, marketing and operating Arlington Park including backstretch services and capital improvements. The legislation expired on May 26, 2008.

The four Illinois riverboat casinos that met the threshold to contribute to the Horse Racing Equity Trust Fund filed a complaint on May 30, 2006 in the Circuit Court of Will County, Illinois to enjoin the imposition and collection of the 3% "surcharge" from the casinos, which was to be deposited in the Horse Racing Equity Trust Fund. The Supreme Court of Illinois rejected the claims of the casinos and ruled on June 5, 2008 that the Horse Racing Equity Trust Fund was constitutional. A petition for rehearing filed by the plaintiffs was rejected by the Illinois Supreme Court on September 22, 2008. The plaintiff riverboats filed a motion for a stay of the Illinois Supreme Court on October 9, 2008 citing their intent to file a petition for certiorari to the United States Supreme Court. At this time it is too early to determine whether the stay will be granted by the Illinois Supreme Court or whether the United States Supreme Court will grant certiorari.

Kentucky

The 2008 session of the general assembly concluded April 15, 2008. The Kentucky horse industry sought legal authority to offer alternative forms of gaming at Kentucky's eight existing racetracks. Alternative forms of gaming would enable our Kentucky racetrack to better compete with neighboring gaming venues by providing substantial new revenues for purses and capital improvements. Governor Steve Beshear supported this expansion and unveiled his plan on February 14, 2008, which would have permitted Churchill Downs to operate a casino in Jefferson County, Kentucky. The legislation, which would have required a public referendum in the fall of 2008, was ultimately unsuccessful. A referendum may be approved during any regular session of the general assembly and may be placed on the ballot of a general election in even-numbered years.

On July 24, 2008, Governor Beshear created the Task Force on the Future of Horse Racing and charged the panel to study the economic soundness of the industry, the effectiveness and quality of drug testing, the oversight role of the Kentucky Horse Racing Commission and the adequacy of state laws and regulations. Recommendations of the panel are expected by December 1, 2008 and will most likely involve a comprehensive legislative package outlining safety initiatives, funding for the racing authority and alternative gaming options.

Louisiana

Fair Grounds introduced legislation in the 2008 session of the Louisiana Legislature to amend its city tax on gross proceeds from slot machine gaming at the racetrack. Fair Grounds proposed a 2% local tax while it is operating in its temporary slots facility, a reduction from 4% that is currently required. In addition, Fair Grounds proposed a 4% tax when Fair Grounds operates its permanent slot facility, which is expected to open on November 14, 2008. Finally, Fair Grounds proposed to dedicate up to one-half of Fair Grounds' city tax to cover the expenses of the Fair Grounds Enhanced Patrol, a security patrol for much of the surrounding neighborhoods of the racetrack. The legislation was ultimately withdrawn, and Fair Grounds is in discussions with local city leaders to introduce a substantially similar ordinance at the city level. At this time, it is too early to determine if those efforts will be successful.

[Table of Contents](#)

The following table sets forth, for the periods indicated, certain operating data (in thousands, except per common share data and live race days):

	Three Months Ended September 30,		Change	
	2008	2007	\$	%
Number of thoroughbred live race days	119	121	(2)	-2%
Net pari-mutuel revenues	\$74,040	\$ 82,480	\$(8,440)	-10%
Gaming revenues	11,427	6,309	5,118	81%
Other operating revenues	14,136	15,116	(980)	-6%
Total net revenues from continuing operations	<u>\$99,603</u>	<u>\$ 103,905</u>	<u>\$(4,302)</u>	-4%
Operating profit	4,295	4,632	(337)	-7%
Operating profit margin	4%	4%		
Net earnings from continuing operations	2,348	1,137	1,211	F
Diluted net earnings from continuing operations per common share	\$ 0.17	\$ 0.08		

Our total net revenues decreased \$4.3 million primarily as a result of decreased revenues at Calder caused primarily by certain horsemen's groups withholding their consent to import or export racing signals to or from Calder during a portion of 2008. In addition, Calder conducted two fewer live race days during the three months ended September 30, 2008 compared to the same period of 2007. These decreases were partially offset by increased revenues related to the opening in September 2007 of the temporary slot facility at Fair Grounds. In addition, we experienced increased revenues related to the performance of TwinSpires, our ADW business created by the acquisition of ATAB and BRIS, and the launch of TwinSpires.com during 2007. Further discussion of net revenue variances by our reported segments is detailed below.

Consolidated Expenses

The following table is a summary of our consolidated expenses (in thousands):

	Three Months Ended September 30,		Change	
	2008	2007	\$	%
Purse expenses	\$27,277	\$31,303	\$(4,026)	-13%
Depreciation and amortization	7,170	6,141	1,029	17%
Other operating expenses	48,855	48,820	35	0%
SG&A expenses	12,006	13,009	(1,003)	-8%
Total	<u>\$95,308</u>	<u>\$99,273</u>	<u>\$(3,965)</u>	-4%
Percent of revenue	96%	96%		

- Purse expenses decreased during the three months ended September 30, 2008 at Calder and Churchill Downs primarily as a result of reduced pari-mutuel revenues caused by the reduced distribution of their racing signals stemming from certain horsemen's groups refusing to consent to such distribution. Higher purse expenses generated by increased business levels experienced in the Gaming operating segment were completely offset by lower purse expenses generated by declines in pari-mutuel business at Fair Grounds and Arlington Park.

[Table of Contents](#)

- SG&A expenses decreased partially as a result of lower professional and legal expenses during the three months ended September 30, 2008 compared to the same period of 2007, primarily due to expenses incurred during 2007 to establish our ADW business and open the temporary slot facility at Fair Grounds. In addition, compensation expense decreased as expenses incurred in the prior year related to equity awards more than offset current year expenses made to realign management in Racing Operations.
- Depreciation and amortization expense increased during the three months ended September 30, 2008 primarily as a function of capital spending related to the temporary slot facility and technology investments in the On-line Business.

Other Income (Expense) and Income Tax Provision

The following table is a summary of our other income (expense) and income tax provision (in thousands):

	Three Months Ended September 30,		Change	
	2008	2007	\$	%
Interest income	\$ 144	\$ 163	\$ (19)	-12%
Interest expense	(362)	(1,123)	761	68%
Equity in loss of unconsolidated investments	(670)	(1,278)	608	48%
Miscellaneous, net	292	484	(192)	-40%
Other income (expense)	<u>\$ (596)</u>	<u>\$ (1,754)</u>	<u>\$ 1,158</u>	<u>-66%</u>
Income tax provision	<u>\$ (1,351)</u>	<u>\$ (1,741)</u>	<u>\$ 390</u>	<u>22%</u>
Effective tax rate	37%	60%		

Significant items affecting the comparability of other income (expense) and income tax provision include:

- Interest expense decreased during the three months ended September 30, 2008 primarily due to lower average outstanding debt balances in the current period. We made partial repayments of the \$55.0 million borrowed to fund the acquisition of ATAB and BRIS since September 30, 2007. Cash to repay the debt was generated by insurance recoveries and the collection of Kentucky Derby week receivables.
- Equity in loss of unconsolidated investments decreased primarily as a result of a \$0.3 million equity loss related to our investment in Empire Racing during the three months ended September 30, 2007.
- Our effective tax rate decreased from 60% to 37% resulting primarily from lower state income tax expense.

	<u>\$99,603</u>	<u>\$103,905</u>	<u>\$ (4,302)</u>	<u>-4%</u>

Significant items affecting comparability of our revenues by segment include:

- Calder revenues decreased primarily due to certain horsemen's groups withholding their consent to import or export racing signals to or from Calder during a portion of 2008. In addition, Calder conducted two fewer live race days during the three months ended September 30, 2008 compared to the same period of 2007. We also believe that the recent downturn in the U.S. economy as well as inclement weather contributed to lower revenues experienced during the three months ended September 30, 2008.
- Churchill Downs did not receive consent from local horsemen's groups to send its racing signal to ADW businesses during the three months ended September 30, 2008, which negatively impacted its revenues. In addition, Churchill Downs had one fewer live race day during the three months ended September 30, 2008 compared to the same period of 2007.
- Fair Grounds experienced lower revenues partially due to the fact that business was interrupted by Hurricane Gustav during the three months ended September 30, 2008.
- We believe Arlington Park revenues decreased primarily due to poor U.S. economic conditions, general industry declines and inclement weather.
- Gaming revenues increased primarily as a result of increased revenues related to the temporary slot facility at Fair Grounds, which opened during September 2007.
- On-line Business revenues increased primarily as a result of the performance of TwinSpires, which was created by the acquisition of ATAB and BRIS and the launch of TwinSpires.com during 2007. During the three months ended September 30, 2008, the On-line Business increased revenues by adding to the wagering content available to customers and significantly increasing the number of new customer accounts.

Refer to Note 11 of the Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q for further information about our reported segments, including a reconciliation of EBITDA to net earnings from continuing operations. Significant items generating an 11% EBITDA increase during the three months ended September 30, 2008 compared to the same period of 2007 include:

- Gaming EBITDA increased primarily due to increased revenues related to the temporary slot facility at Fair Grounds, which opened in September 2007 and currently includes 250 slot machines.
- On-line Business EBITDA increased as we added to the wagering content available to customers and significantly increased both the number of new customer accounts and the average daily wagering activity in existing accounts.
- Racing Operations EBITDA decreased primarily as a result of weaker results at Calder due to the aftermath experienced from the horsemen's dispute, poor U.S. economic conditions and higher expenses related to the departure of certain members of management. At Fair Grounds, we experienced a decline in EBITDA primarily due to expenses related to the departure of the racetrack president as well as business interruption caused by Hurricane Gustav.
- Corporate EBITDA decreased primarily as a result of the loss of revenue associated with the discontinuation of certain simulcast settlement services for third parties.

Net earnings from continuing operations	32,614	22,169	10,445	47%
Diluted net earnings from continuing operations per common share	\$ 2.33	\$ 1.59		

Our total net revenues increased \$22.9 million primarily as a result of the performance of TwinSpires, our ADW business created by the acquisition of ATAB and BRIS and the launch of TwinSpires.com during 2007. In addition, we experienced increased revenues related to the opening in September 2007 of the temporary slot facility at Fair Grounds. These increases were partially offset by decreased revenues at Calder caused primarily by the fact that certain horsemen's groups withheld their consent to import or export racing signals to or from Calder during a portion of the nine months ended September 30, 2008. In addition, Calder conducted five fewer live racing days during the nine months ended September 30, 2008 compared to the same period of 2007. Pari-mutuel revenues at Fair Grounds decreased partially as a result of business interruption caused by Hurricane Gustav during the three months ended September 30, 2008.

Consolidated Expenses

The following table is a summary of our consolidated expenses (in thousands):

	Nine Months Ended September 30,		Change	
	2008	2007	\$	%
Purse expenses	\$ 86,231	\$ 93,426	\$ (7,195)	-8%

Total	<u>\$286,663</u>	<u>\$282,885</u>	<u>\$ 3,778</u>	1%
Percent of revenue	83%	88%		

- Other operating expenses increased during the nine months ended September 30, 2008 primarily as a result of the performance of TwinSpires, which was created by the acquisition of ATAB and BRIS and the launch of TwinSpires.com during 2007. In addition, we experienced increased operating expenses related to the operation of the temporary slot facility at Fair Grounds, which opened during September 2007.
- Depreciation and amortization increased primarily as a result of experiencing a full period impact of expense related to the acquisition of ATAB and BRIS. In addition, we experienced increased depreciation and amortization related to the temporary slot facility in Louisiana.
- The increase in SG&A expenses is primarily attributable to the acquisition of ATAB and BRIS and the launch of TwinSpires.com.
- Purse expenses decreased in conjunction with lower pari-mutuel revenues experienced at Calder and Churchill Downs as a result of the refusal by certain horsemen's groups to grant consents to export and import racing signals for wagering purposes. In addition, we experienced lower purse expenses at Fair Grounds generated by lower pari-mutuel revenues. Increases in purse expense driven primarily by the slot operations in Louisiana partially offset these declines.

Other Income (Expense) and Income Tax Provision

The following table is a summary of our other income (expense) and income tax provision (in thousands):

[Table of Contents](#)

Significant items affecting the comparability of other income (expense) and income tax provision include:

- Miscellaneous, net income decreased during the nine months ended September 30, 2008 primarily due to the recognition of a gain of \$1.7 million related to the sale of a tract of land held by Arlington Park, which occurred during the nine months ended September 30, 2007.
- Interest expense decreased during the nine months ended September 30, 2008 primarily due to the lower average outstanding debt balances during the nine months ended September 30, 2008 compared to the same period of the prior year. We have made partial repayments of the \$55.0 million borrowed to fund the acquisition of ATAB and BRIS since September 30, 2007. Cash to repay the debt was generated by insurance recoveries and the collection of Kentucky Derby week receivables.

	<u>\$344,621</u>	<u>\$321,680</u>	<u>\$ 22,941</u>	7%

Significant items affecting comparability of our revenues by segment include:

- On-line Business revenues increased primarily as a result of the performance of TwinSpires, which was created by the acquisition of ATAB and BRIS and the launch of TwinSpires.com during 2007.
- Gaming revenues increased primarily as a result of increased revenues related to the temporary slot facility at Fair Grounds, which opened during September 2007.
- Calder revenues decreased primarily due to the fact that certain horsemen's groups withheld their consent to import or export racing signals to or from Calder during a portion of the nine months ended September 30, 2008. In addition, Calder conducted five fewer live race days during the nine months ended September 30, 2008 compared to the same period of 2007.
- Fair Grounds revenues decreased primarily due to lower import simulcast pari-mutuel revenues, which we believe was caused by business interruption resulting from Hurricane Gustav as well as increased competition in Louisiana created by the continued reopening of various gaming operations in the region after Hurricane Katrina. In addition, Fair Grounds had two fewer live racing days during the nine months ended September 30, 2008 compared to the same period of 2007.

Total EBITDA	<u>\$77,889</u>	<u>\$56,204</u>	<u>\$21,685</u>	39%

Refer to Note 11 of the Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q for further information about our reported segments, including a reconciliation of EBITDA to net earnings from continuing operations. Significant items generating a 39% EBITDA increase during the nine months ended September 30, 2008 compared to the same period of 2007 include:

- Racing Operations EBITDA includes the recognition of \$17.2 million during the nine months ended September 30, 2008 of insurance recoveries related to damages sustained at Fair Grounds from Hurricane Katrina compared to \$0.8 million of insurance recoveries recognized in the same period of the prior year. The remaining decline of \$6.8 million or 13% was driven primarily by lost pari-mutuel business at Calder of approximately \$6.0 million related to the refusal by certain horsemen's groups to consent to export and import certain racing signals for wagering purposes. In addition, Arlington Park EBITDA declined as a result of the recognition of a gain of \$1.7 million related to the sale of a tract of land during the nine months ended September 30, 2007. Partially offsetting these declines was an increase at Churchill Downs from the performance of Kentucky Derby week.
- Gaming EBITDA increased primarily due to increased revenues related to the temporary slot facility at Fair Grounds, which opened in September 2007 and currently includes 250 slot machines.
- On-line Business EBITDA increased as a result of the performance of TwinSpires, which was created by the acquisition of ATAB and BRIS and the launch of TwinSpires.com during 2007.
- Corporate EBITDA decreased primarily due to lost revenues associated with the discontinuation of certain simulcast settlement services for third parties. In addition, we incurred additional expenses related to our initiative to attract and retain appropriate personnel to achieve our business objectives. Partially offsetting these declines was a reduction in share-based compensation costs.

Consolidated Balance Sheet

The following table is a summary of our overall financial position as of September 30, 2008 and December 31, 2007 (in thousands):

	September 30, 2008	December 31, 2007	Change	
			\$	%
Total assets	\$ 609,146	\$ 624,816	\$(15,670)	-3%
Total liabilities	\$ 205,236	\$ 257,258	\$(52,022)	-20%
Total shareholders' equity	\$ 403,910	\$ 367,558	\$ 36,352	10%

[Table of Contents](#)

Significant items affecting comparability of our consolidated balance sheet include:

- Significant changes within total assets include decreases in accounts receivable and income taxes receivable of \$19.8 million and \$11.0 million, respectively. Accounts receivable balances decreased due to the collection of Churchill Downs receivables related to the spring meet, Kentucky Derby and Kentucky Oaks. In addition, simulcast receivables decreased due to the collection of receivable balances outstanding at December 31, 2007, which were generated during the fall racing season. Income taxes receivable decreased reflecting the impact of 2008 estimated tax payments made.

Partially offsetting these decreases were increases in property and equipment and goodwill of \$13.4 million and \$7.0 million, respectively. Additions to property and equipment primarily included spending related to the permanent slot facility at Fair Grounds and technology investments in the On-line Business since its launch in May 2007. In addition, goodwill increased due to the accrual of earn-out payments related to the acquisition of ATAB and BRIS.

- Significant changes within total liabilities include decreases in long-term debt, deferred revenue and dividends payable of \$32.0 million, \$18.9 million and \$6.8 million, respectively. Long-term debt decreased due to payments under our bank revolver arising from cash generated by operating activities, which included collections of Kentucky Derby-related receivables and insurance recoveries. Deferred revenue decreased due to the recognition of advance billings related to the 2008 Kentucky Derby and spring meet at Churchill Downs. Dividends payable decreased due to the payment of the Company's annual dividend during the three months ended March 31, 2008.

Partially offsetting these decreases were increases in accrued expenses and accounts payable of \$2.8 million and \$2.1 million, respectively. Accrued expenses increased due to unpaid expenses related to the racing meet at Arlington Park, and accounts payable increased primarily due to the growth of our On-line Business.

Liquidity and Capital Resources

The following table is a summary of our liquidity and capital resources (in thousands):

	Nine Months Ended September 30,		Change	
	2008	2007	\$	%
Operating activities	\$ 74,642	\$ 55,341	\$ 19,301	35%
Investing activities	\$(35,361)	\$(127,315)	\$ 91,954	72%
Financing activities	\$(41,312)	\$ 59,501	\$(100,813)	U

Significant items affecting comparability of our liquidity and capital resources include:

- The increase in cash provided by operating activities is primarily due to the recognition of insurance recoveries related to damages sustained at Fair Grounds by Hurricane Katrina. We anticipate that cash flows from operations over the next twelve months will be adequate to fund our business operations and capital expenditures.
- The decrease in cash used in investing activities is attributable primarily to a favorable comparison to 2007 related to the acquisition of the ATAB and BRIS businesses. Additions to property and equipment during the nine months ended September 30, 2008 primarily included spending related to the permanent slot facility and upgrades to our On-line Business. During the nine months ended September 30, 2007, additions to property and equipment primarily included spending related to the opening of the temporary slot facility at Fair Grounds, a polytrack racing surface and a dormitory at Arlington Park.
- We made repayments in excess of our borrowings on our revolving loan facilities of \$32.0 million during the nine months ended September 30, 2008 due to the availability of cash generated by operating activities. Borrowings on our revolving loan facilities exceeded repayments by \$60.2 million during the nine months ended September 30, 2007, which was driven primarily by cash borrowed to fund the acquisition of ATAB

and BRIS. Our ability to access the credit market, and the related cost of these borrowings, is affected by the strength of our credit rating and market conditions. To date, we have not experienced any limitations in our ability to access these sources of liquidity. As of September 30, 2008, there is \$75.2 million of borrowing capacity under our revolving loan facility, which matures September 2010. Our revolving loan facility does not limit our ability to pay dividends.

Recently Issued Accounting Pronouncements

SFAS No. 157, Fair Value Measurements (“SFAS No. 157”) establishes a common definition for fair value to be applied to U.S. generally accepted accounting principles requiring use of fair value, establishes a framework for measuring fair value, and expands disclosures about such fair value measurements. Issued in February 2008, Financial Accounting Standards Board Staff Position (“FSP”) No. 157-1, Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements that Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13, removed leasing transactions accounted for under SFAS No. 13, Accounting for Leases and related guidance from the scope of SFAS No. 157. FSP No. 157-2, Partial Deferral of the Effective Date of Statement 157, deferred the effective date of SFAS No. 157 for all nonfinancial assets and nonfinancial liabilities to fiscal years beginning after November 15, 2008.

The Company adopted SFAS No. 157 as of January 1, 2008 for financial assets and financial liabilities, and there was no impact on the Company’s consolidated financial condition and results of operations for the three and nine months ended September 30, 2008. The Company is currently assessing the impact of SFAS No. 157 for nonfinancial assets and nonfinancial liabilities on its consolidated financial position and results of operations.

SFAS 141R, Business Combinations (“SFAS No. 141R”) establishes principles and requirements for how an acquirer: (1) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interests in the acquiree; (2) recognizes and measures the goodwill acquired in the business combination or gain from a bargain purchase; and (3) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial impact of the business combination. SFAS No. 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first reporting period for fiscal years beginning on or after December 15, 2008 and will have no impact on transactions recorded to date.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

At September 30, 2008, we had \$36.0 million outstanding under our revolving credit facility, which bears interest at LIBOR-based variable rates. We are exposed to market risk on variable rate debt due to potential adverse changes in the LIBOR rate. Assuming the outstanding balance of the debt facilities remain constant, a one-percentage point increase in the LIBOR rate would reduce annual pre-tax earnings, recorded fair values and cash flows by \$0.4 million.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company’s Disclosure Committee and management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(b). Based upon this evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that our disclosure controls and procedures were effective as of September 30, 2008.

(b) Changes in Internal Control Over Financial Reporting

Management of the Company has evaluated, with the participation of the Company’s Chief Executive Officer and Chief Financial Officer, changes in the Company’s internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) during the third quarter of 2008. There have not been any changes in the Company’s internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) that occurred during the quarter ended September 30, 2008 that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Jerry Jacobs

On June 15, 2005, Jerry Jacobs, a resident of New Orleans, Louisiana filed a petition with the Civil District Court for the Parish of New Orleans, Louisiana for declaratory judgment alleging that slot machines at Fair Grounds Race Course (“Fair Grounds”) would violate the New Orleans City Charter that prohibits more than one land-based casino and that the Louisiana statute authorizing slot machines at racetracks violates the Louisiana constitution. The petition requests injunctive relief prohibiting the operation of slot machines at Fair Grounds. Churchill Downs Louisiana Horseracing Company, L.L.C., the owner of Fair Grounds, and the State of Louisiana are defendants in the action. The City of New Orleans intervened in support of the Company and the State of Louisiana. On October 30, 2006, the Civil District Court granted the Company’s motion for summary judgment and dismissed Mr. Jacobs’ petition in its entirety. On November 15, 2006, Mr. Jacobs appealed the Civil District Court’s dismissal to the Court of Appeal for the Fourth Circuit of the State of Louisiana. The trial court decision was affirmed by the Court of Appeals in the Company’s favor on February 27, 2008. Mr. Jacobs filed a writ application with the Louisiana Supreme Court on March 26, 2008 requesting reconsideration of the appellate court’s decision. The Company filed its motion in opposition on April 8, 2008. On May 16, 2008, the Louisiana Supreme Court denied Mr. Jacobs’ writ application.

THG

On April 24, 2008, the Company filed a lawsuit styled Churchill Downs Incorporated, Calder Race Course, Inc., Churchill Downs Technology Initiatives Company vs. Thoroughbred Horsemen’s Group, LLC, et. al., Civil Action No. 3:08-CV-225-(H) (the “THG Lawsuit”) in the United States District Court for the Western District of Kentucky against the THG and the FHBPA alleging that the THG, the FHBPA and various other state horsemen associations (collectively with the FHBPA, the “Horsemen’s Groups”) and certain individuals, violated Federal antitrust laws in connection with the interstate distribution of simulcast signals containing race content to off-track betting systems, including advance deposit wagering (“ADW”) companies (collectively “OTB Systems”). On May 14, 2008, the Company amended the complaint to add the KHBPA, the Kentucky Thoroughbred Association and certain other individuals to the THG Lawsuit. On July 28, 2008, the THG, the KTA and the KHBPA filed separated motions to dismiss on behalf of themselves and certain individual defendants. The KHBPA also filed an answer and a counterclaim. The counterclaim alleges that the Company did not pay the contractually required amounts from its ADW business into the purse account of Churchill Downs and that the Company was retaliating against the KHBPA for exercising its consent right under the IHA when the Company reduced purses by 20% at Churchill Downs.

The Company generates a significant amount of its revenues from sending signals of races from its racetracks to OTB Systems in other states (“export”) and receiving signals from racetracks in other states (“import”). Revenues are earned from pari-mutuel wagering and fees on both import and export signals. Under the Interstate Horseracing Act of 1978 (the “IHA”), racetrack operators are permitted to contract with OTB Systems for the export of races and the right to accept wagers on such races by the OTB Systems, subject to compliance with the IHA. Compliance with the IHA requires, among other things, (i) approval of the state racing commissions in the state from which the signal is exported and the state in which the wagers are taken and (ii) a written agreement with the Horsemen’s Group which represents the majority of the owners and trainers racing at the racetrack for those races proposed to be exported.

The THG Lawsuit alleges, among other things, that the THG, various Horsemen’s Groups and certain individual co-conspirators have violated Section 1 of the Sherman Act by contracting and conspiring to raise the amount of revenues they receive from ADW businesses and by engaging in a group boycott involving the withholding of consents to export and import racing signals by certain racetrack operators, including the Company. The THG Lawsuit requests an order dissolving the THG, an injunction preventing further violations of the Sherman Act and monetary damages.

[Table of Contents](#)

THG is an alliance of approximately nineteen Horsemen's Groups covering over 47 racetracks, including the Company's Fair Grounds, Churchill Downs, Arlington Park and Calder racetracks. Certain Horsemen's Groups have appointed the THG as their agent for the purpose of negotiating agreements with the Company relating to revenue sharing on ADW pari-mutuel activity in an amount equal to one-third of the gross wagering takeout by the ADW business, a level that is significantly in excess of current sharing. Pending the resolution of this demand, certain of the Horsemen's Groups, including the FHBPA and the KHBPA, are withholding their consent under the IHA to export the racing signals of the Company's racetracks to certain OTB systems, including TwinSpires.com.

On July 7, 2008, certain subsidiaries of the Company reached agreement with the FHBPA with respect to the sharing of revenues from pari-mutuel operations (the "Purse Agreement") and slot machines (the "Slots Agreement") at Calder. In connection with these agreements, the Company and its affiliates have agreed to voluntarily dismiss, without prejudice, claims against the FHBPA and certain of its directors and officers (the "FHBPA Defendants") in the THG Lawsuit. These agreements allowed the Company to resume distributing its signal from Calder to the simulcast network around the country, including to OTB facilities and racetracks (excluding national ADW businesses), beginning with races on July 10, 2008. In addition, certain out-of-state horsemen's groups that previously withheld the consents required under the IHA to send certain racetracks' signals to Calder for wagering have now granted those consents. The Purse Agreement and the Slots Agreement initially included provisions that could lead to the termination of those agreements if the agreement with the Florida Thoroughbred Breeders and Owners Association ("FTBOA") for the sharing of slots revenue is not reached by August 6, 2008; however, on July 31, 2008, Calder and the FHBPA agreed to amend each of the Purse Agreement and Slots Agreement to extend such deadline to August 31, 2008 and then a second time to extend the deadline to September 10, 2008. Calder and the FTBOA reached an agreement for the sharing of slots revenues on September 10, 2008. At the same time, the Company agreed to dismiss with prejudice the FHBPA and its individual defendants from the THG lawsuit.

Following dismissal of the THG Lawsuit against the FHBPA Defendants, the Company intends to continue to pursue the THG Lawsuit against the remaining defendants, including the THG.

The Purse Agreement became effective on July 7, 2008. Under the terms of the Purse Agreement, for thoroughbred horse racing meetings at Calder through January 2, 2009, the Company generally will make payments to the horsemen in an amount equal to fifty percent (50%) of all revenue from pari-mutuel operations. In the event that the Company refiles the claims underlying the THG Lawsuit against the FHBPA Defendants, the Purse Agreement will become null and void.

The Company and the FHBPA are continuing to work toward an agreement resolving their remaining outstanding issue, which concerns signal distribution to national ADW businesses. While the Company and the FHBPA work toward a resolution of this issue, the Company will not receive revenues from the distribution of Calder's signal to national ADW businesses, including the Company's ADW business, TwinSpires, for the purpose of accepting wagers. In addition, negotiations have taken place with the two Horsemen's Groups in Kentucky concerning the export of racing signals from Churchill Downs to national ADW businesses, including TwinSpires.

As a result of the dispute, the racing signals of Calder and Churchill Downs were not exported to national ADW businesses during the second or third quarters of 2008. Calder's racing signal is currently not being exported to national ADW businesses. While the local Horsemen's Groups have not withheld consents for the import or export of racing signals to and from Arlington Park and Fair Grounds, there can be no assurance that the local Horsemen's Groups will continue to consent. Further, there is no assurance that the local Horsemen's Groups in those states will consent to the export of Churchill Downs' racing signal to national ADW businesses for its fall meet of 2008.

The outcome of the THG Lawsuit cannot be determined at this time. There can be no assurance that the Company will be successful in causing the activities by the THG and the Horsemen's Groups which are described in the THG Lawsuit to be terminated or that the THG Lawsuit will result in money damages in favor of the Company sufficient to compensate the Company for losses it suffers. There also can be no assurance that the Company will not be subject to damages in connection with the counterclaim brought by the KHBPA. Finally, there can be no assurance that the Company will reach resolution over its dispute with the Horsemen's Groups over their withholding consent under the IHA in connection with the import or export of racing signals to or from Calder and Churchill Downs. In the event these matters cannot be resolved in a satisfactory manner, the Company may suffer loss and its business, financial condition and results of operations could be materially and adversely impacted.

ITEM 1A. RISK FACTORS

Information regarding risk factors appears in Part I – Item 1A of the Company’s Annual Report on Form 10-K for the year ended December 31, 2007. Other than as described below, there have been no material changes from the risk factors previously disclosed in the Company’s Annual Report on Form 10-K.

In addition to risks and uncertainties in the ordinary course of business that are common to all businesses, important factors that are specific to our industry and company could materially impact our future performance and results. The factors described below are the most significant risks that could materially impact our business, financial condition and results of operations. Additional risks and uncertainties that are not presently known to us, that we currently deem immaterial or that are similar to those faced by other companies in our industry or business in general may also impair our business and operations. Should any risks or uncertainties develop into actual events, these developments could have a material, adverse impact on our business, financial condition and results of operations.

We Depend On Agreements With Our Horsemen

As a result of the actions of the THG and the Horsemen’s Groups, the Company’s business, financial condition and results of operations have been materially and adversely impacted. During the second quarter and a portion of the third quarter of 2008, the Company did not receive revenues derived from (i) the export of racing signals from Calder to OTB Systems outside the State of Florida (other than an OTB System in New York) or (ii) the import of racing signals to Calder’s OTB System from Beulah Park and River Downs (Ohio), Churchill Downs (Kentucky), Delaware Park (Delaware), Colonial Downs (Virginia), Presque Isle (Pennsylvania) and Lone Star Park (Texas). Further, the Company did not receive revenues (other than with respect to the Kentucky Oaks, Kentucky Derby and Woodford Reserve Race Classic races) derived from the export of racing signals from Churchill Downs to the Company’s ADW business, TwinSpires, and to certain other OTB Systems. Additionally, the Company generated reduced revenues through TwinSpires as a result of the inability to accept wagers on races run at Churchill Downs and Calder racetracks and other racetracks where a Horsemen’s Group withheld consent. During the pendency of the dispute with the Horsemen’s Groups, the Company experienced generalized decreases in live attendance at its racetracks and reduced traffic on TwinSpires due to the more limited racing content and wagering opportunities available to customers. On April 22, 2008, the Company announced that it was reducing overnight purses at Calder by 30%, effective April 27, 2008. On May 9, 2008, the Company announced that it was reducing overnight purses at Churchill Downs by 20%, effective May 14, 2008, and reducing purses for eight stakes races, including six races in its Summit of Speed card at Calder. Such reductions negatively impact the Company’s ability to continue to attract high quality thoroughbreds to its racetracks. The Horsemen’s Group in Illinois has joined the THG. It is not clear whether the Horsemen’s Group would withhold its consent or otherwise seek to re-negotiate contractual terms with the Company with respect to the Company’s racetrack at Arlington Park. In addition, the Louisiana Horsemen’s Benevolent and Protective Association, Inc. (the “Louisiana HBPA”) is a member of the THG.

The Louisiana HBPA has not indicated whether it will give its consent for Fair Grounds to export its racing signal to national ADW businesses for its racing meet, which commences on November 14, 2008. At this time, it is not clear if or when the Company will receive consent to export its racetracks’ racing signals to ADW businesses. At this time, the Company cannot predict the outcome of the THG Lawsuit or of the timing or manner in which the dispute with the Horsemen’s Groups may be resolved.

During the second and third quarters of 2008, the Company’s ADW business, TwinSpires, was also materially and adversely impacted by the actions of the THG and the Horsemen’s Groups. As a result of those actions, TwinSpires was not able to accept wagers on the racing signals of Calder, Churchill Downs, Louisiana Downs, River Downs, Thistledown, Retama Park, Presque Isle Downs, Sam Houston Race Park and Lone Star Park. However, beginning July 24, 2008, we began accepting wagers on Louisiana Downs. If other Horsemen’s Groups do not consent to the export of other racetracks’ racing signals, TwinSpires will not be able to accept wagers on those racetracks’ racing signals. This inability could have a material, adverse impact on the Company’s business, financial condition and results of operations. At this time, we cannot predict the impact of this ongoing dispute on the Company’s ADW business.

[Table of Contents](#)

The IHA, as well as various state racing laws, require that we have written agreements with the horsemen at our racetracks in order to simulcast races, and, in some cases, conduct live racing. We also have written agreements with horse owners with regards to the proceeds of gaming machines in Louisiana. These agreements provide that we must receive the consent of the horsemen's groups at the racetrack conducting live races before we may allow third parties to accept wagers on those races. In addition, the agreements between other racetracks and their horsemen's groups typically provide that those racetracks must receive consent from the horsemen's groups before we can accept wagers on their races. Further, Florida law requires Calder to have an agreement with the FHBPA governing the payment of purses on live thoroughbred races conducted at Calder and an agreement with the FTBOA governing the payment of breeders', stallion, and special racing awards on live thoroughbred races conducted at Calder before Calder can receive a license to conduct slot machine gaming. We have entered into the Calder Slots Agreement with the FHBPA and reached an agreement with the FTBOA for the sharing of slots revenue at Calder.

The failure to maintain agreements with our horsemen and industry associations on satisfactory terms or the refusal by a horsemen's group to consent to third parties accepting wagers on our races or our accepting wagers on third parties' races could have a material, adverse impact on our results of operations.
